

VISION

To be among the best in providing reliable quality, safe, environmental conscious and cost-efficient ship management services worldwide.

MISSION

To establish an effective and proper safety management system to offer a reliable quality service to satisfy the needs of the shipowners and charterers.

To maintain and improve continuously the functions of the system to ensure the safe operation of the ships and promote their operational efficiency.

To strive for Zero Pollution, Zero incident and Reduction in permitted Emissions

Capt. Kimiro Nagagata
